

Better Cleaning.  
*Faster.*

Hillyard Cleaning Companion® Series ►

# CLEAN BETTER

## Introducing...

the ultimate in touch-free cleaning. Hillyard Cleaning Companions change the way work gets done, giving your crew the ability to clean better and faster than ever before.

## More surfaces get more attention.

**Manual cleaning is hard work** - bending, reaching and scrubbing! That's why so many surfaces rarely get the thorough cleaning they need, creating the perfect breeding ground for odor-causing bacteria.

### **A Hillyard Cleaning Companion makes cleaning easy - everyday!**

Surfaces in bathrooms, like the undersides of fixtures, partitions and grout lines will finally get the attention they deserve.

**Are your restrooms  
getting the attention  
they need?**

# Going touch-free can reduce cleaning times by as much as 67%

## CLEAN FASTER

**Just fill with water and you're ready to clean.**

**Apply, flip and rinse...**

Partitions  
& Walls

Fixtures

Floors

**...squeegee, flat mop, or vac.**

Traditional  
Cleaning  
(3 Minutes)

Touch-Free  
Cleaning  
(1 Minute)

When *properly* performed, traditional restroom cleaning takes about three minutes per fixture. Touch-free restroom cleaning takes about one minute per fixture.

*source: ISSA 410 Cleaning Times*

### Will I Always Save Time?

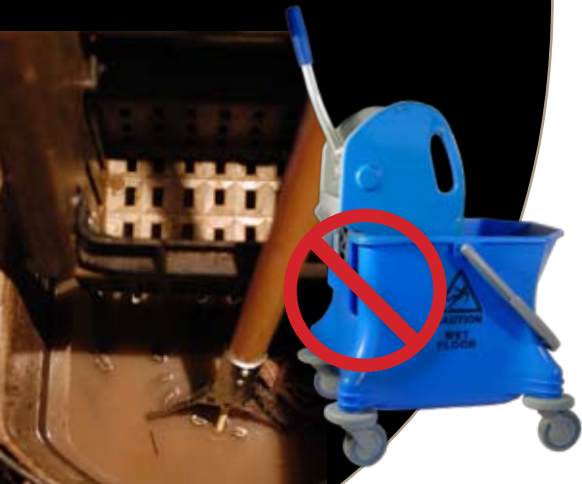

You may not. Because manual cleaning is so difficult, there's a good chance your staff is NOT spending the adequate amount of time it takes to do the job right. The result is dirty, unsanitary restrooms.

When your staff starts using the Cleaning Companion, your restrooms will be cleaner and more sanitary in about the same time they are spending now, because the Cleaning Companion is easier to use and more effective.

# CLEAN HEALTHIER

## Get rid of the mop bucket.

What happens to the soil and filth a mop spreads around on the floor? It goes into the same solution you are trying to clean with! How can you clean a floor with dirty water and a dirty mop? You can't. So, it's time to get rid of the mop bucket and get a Cleaning Companion!

**Alleviate stress and strain** with an ergonomically designed cleaning process.

**Reduce chemical and water consumption** with a 1/2 gallon per minute flow rate, concentrated chemicals, and onboard dilution control.

**Create healthier environments** by cleaning more surfaces, more effectively. And, by reducing the potential for cross contamination typically associated with mop buckets.

**Virtually eliminate noise pollution** with a quiet, battery-operated system.\*

**Use environmentally-preferred cleaning solutions** such as Hillyard Re-Juv-Nal® or Green Seal Certified products like Suprox®, a peroxide based multi-purpose cleaner, and Hillyard Green Select® Bathroom Cleaner.

Green Seal is an independent, non-profit organization that strives to achieve a healthier and cleaner environment. Green Seal provides credible, objective, and unbiased information whose only purpose is to direct the purchaser to environmentally responsible products and services.

\* When used without optional, cord-electric, C3 Recovery System.

# CLEAN EVERYDAY

## Designed for high-value daily use.

**Completely self-contained**, battery operated\*, onboard dilution control complete with application wand and fresh water tank. The C3 even features a built-in bottle fill dispenser and wet-floor sign storage.

**Onboard tool storage** neatly organizes the adjustable handle, squeegees, brush and micro-fiber mop frame. All tools are interchangeable with quick-connect technology.

**High performance battery pack** provides long run-time and battery life. Hillyard Cleaning Companion pumps will run about 30 seconds per fixture to clean an entire restroom (including fixtures, floors, partitions, walls). This chart illustrates how many restrooms may be cleaned on a fully charged battery.

Fixtures per restroom:	3	5	10	20
Approximate number of restrooms cleaned on a fully charged battery:	120	72	36	18

Simple to use.

Less time.

Cleaner facilities.

Lower cost.

Happy patrons.

# CLEAN RESTROOMS AND MORE

Designed for restrooms  
and much more...

Unsanitary restrooms  
continue to be the  
largest source of  
facility complaints.\*

41%  
of complaints

23% - Cleanliness  
18% - Supplies

## Who's using Hillyard Cleaning Companions®?

Schools and Universities • Building Service Contractors • Hospitals • Health Clubs • Long-Term Care Facilities • Travel Plazas • Convenience Marts • Restaurants • Parks and Recreation Departments • Theme Parks • Churches • Supermarkets • Office Buildings • Correctional Facilities • Manufacturing Facilities • Anyone wanting to clean better and faster!

## Why are Hillyard Cleaning Companions so effective?

**Simplicity promotes daily use.** It's easy to use everyday with virtually no set-up time, compact size, and maneuverability. When the job is finished, simply put the C2/C3 back in the closet - no extensive machine tear-down or clean-up required.

**Daily use keeps facilities cleaner.** Using a Cleaning Companion daily results in less restorative cleaning. Daily use means more surfaces get more attention on a regular basis, keeping facilities at a higher level of clean. Start Clean and Stay Clean® with a Hillyard Cleaning Companion!

## Squeegee, Flat Mop, or Vac? It's Your Choice!

The choice is yours. The C3 Cleaning Companion Recovery System is an optional wet vac accessory. So, if you need a vac it's available, if you don't, you're not paying for something you won't use. Here's why you may *not* need a vac system.

Hillyard Cleaning Companions deliver cleaning solutions with a highly effective moderate pressure spray at a 1/2 gallon per minute flow rate. Unlike high-pressure systems, which can damage or over-saturate surfaces, Hillyard Cleaning Companions deliver the right amount of moisture, under the right amount of pressure to clean effectively.

With a Cleaning Companion there is no over-saturation, so if you have a working drain, you can simply squeegee the solution to the drain and flat mop dry if desired. On a quick clean, all you may need to do is flat mop.

# C3® Features

## C3 Versatility

The C3 can be mounted on a janitors cart, or be used as a stand alone cleaning machine.

C3 - Included Accessories:  
18" foam squeegee,  
1 adjustable handle,

Refill Product Name, Code #, Dilution Rate, Fragrance

Frequency of Use

SUPROX® - HIL0070422, 5 oz., Citrus

- 8% concentrate hydrogen peroxide base
- All-around cleaner & deodorizer, brightens & maintains grout

- Use daily as a stand alone program.
- When a disinfectant/cleaner is used daily, Suprox can be used weekly to deep clean and assist with grout maintenance.

MARINER® - HIL0070222, 5 oz., Floral

- Powerful blend of citric and phosphoric acids
- Strong restroom cleaner removes stubborn mineral deposits and soap film

- Use daily as a stand alone program.
- When a disinfectant/cleaner is used daily, Mariner can be used weekly to deep clean and assist with mineral deposit and heavy soap film removal.

SHOWER ROOM CLEANER - HIL0070722, 4 oz., Mint

- Cleaner AND disinfectant
- Blend of phosphoric and oxalic acid, removes mineral deposits and soap film

- Use daily as a stand alone program.
- Can use Mariner or Suprox monthly for "deep cleaning" based on traffic load.

RE-JUV-NAL® - HIL0070522, 2 oz., Floral

- Cleaner AND disinfectant. Neutral pH won't harm floor finish

- Use daily as part of a program that uses Suprox or Mariner weekly.

NON-ACID RESTROOM DISINFECTANT/CLEANER - HIL0070322, 2 oz., Fresh

- Cleaner AND disinfectant. Neutral pH. Low dye. Low Fragrance

- Use daily as part of a program that uses Suprox or Mariner weekly.

SM-1® DEGREASER - HIL0070122, 5 oz., Mild

- Concentrated, non-butyl degreaser, NSF rated, category A1, A4

- Use daily for kitchen cleaning and other tough degreasing needs.

GREEN SELECT® BATHROOM CLEANER - HIL0070822, 6 oz., Floral

- Glycolic acid formulation to remove soap film and hard water
- Strong restroom cleaner removes stubborn mineral deposits and soap film

- Use daily as a stand alone program.
- When a disinfectant/cleaner is used daily, GSBC can be used weekly to clean and assist with mineral deposit and heavy soap film removal.

CARPET PRE-SPRAY AND EXTRACTION CLEANER - HIL0070022, 6 oz., Clean

- Penetrates to loosen oil and water based soils
- Safe on 5th gen. & Stain Resistant fibers. Carpet & Rug Institute approved.

- Use as needed for pre-spraying carpet.

WINDO-CLEAN+® - HIL0070922, 6 oz., Mild

- Ammonia-free glass and surface cleaner

- Use as needed for window cleaning.

TOP CLEAN - HIL0070622, 2 oz., Fresh

- Neutral floor cleaner

- Use as needed for floor cleaning.

SANITIZER 64 - HIL0071122, 2 oz., Mild

- Effective sanitizer for use on food contact surfaces

- Use as needed for sanitizing.

Hillyard C Series refills have been specifically designed to perform in the C2 and C3 Cleaning Companions. Each refill contains a valve that matches the requirements of the C2/C3, battery-powered pump system, insuring accurate dilution rates and high performance. All refills come packed in convenient ½ gallon containers, 6 per case.
